MacInTAS Pty Ltd Scholarships in Computing and IT

$5,000 each

MacInTas Pty Ltd specialises in mobile technology solutions such as identified by the iOS environment from Apple, Inc. The company focuses on command and control centre solutions deployed on the Mac OS X platform from Apple, Inc.

These scholarships have been established to provide investment in local training and education of students in the information technology area.

Two scholarships will be made available to students entering third year or Honours in the School of Computing and Information Systems. Preference will be given to high-achieving Honours students undertaking a project in mobile technologies. Second preference will be given to high-achieving Honours students who completed a mobile technologies orientated project in their undergraduate KXX331–2 study. Third preference will be given to high achieving Honours or undergraduate students on the basis of grade point average.
