Unit Outline: KXA355 Mobile and Ubiquitous Computing

Semester 2, 2004

Sandy Bay Campus, Hobart
Newnham Campus, Launceston

Prerequisites
KXA251 or KXA254

Corequisites
None

Unit Weight
12.5% of one academic year

Unit Coordinator
Dr. Daniel Rolf

Lecturing Staff
Sandy Bay Campus, Hobart: Dr. Daniel Rolf
Newnham Campus, Launceston: Dr. Daniel Rolf

Scheduled Teaching Sessions
Lectures: 3 hr/wk
Tutorials: 1 hr/wk (from week 2)
The Unit Timetable can be accessed from the Study Resources section of the School website. (http://www.comp.utas.edu.au/app/studyresources.jsp).

Unit Website
The unit website is accessed from http://vista.utas.edu.au/. You will need to use your university email pop account username and password to log on to the WebCT system. Once authenticated by the system your personalised MyWebCT area will be displayed. It contains links to the websites that you have permission to access - including the website for this unit.

If you are not able to access the unit website, please contact the University IT help desk:
Entrance Level, Morris Miller Library, Sandy Bay Campus;
Entrance Level, Launceston Campus Library, Newnham Campus.
Telephone: 6226 1818 and 1300 304 903.
The 1300 number is a local call from within Tas, with the exception of mobiles.
Email: servicedesk@utas.edu.au
Website: http://www.utas.edu.au/servicedesk/student/index.html

University Website
Information and Resources for 'Current Students' are available on the university website at: http://www.utas.edu.au/students/

Provider
School of Computing - Faculty of Science, Engineering, and Technology. http://www.comp.utas.edu.au

OVERVIEW

Introduction
This unit studies how mobile communications are achieved: the technology and digital protocols used by mobile phones and how mobile communications fit into a traditional wired network structure such as the internet. The emphasis is on the current state and directions of the industry, standardisation and the integration of the many aspects of computing that come together in this field. Also, the business and social implications of current and potential directions are discussed.

Learning Outcomes
On successful completion of this unit, you will be able to:

1. Demonstrate understanding of the technical, commercial and social issues relating to ubiquitous communications
2. Demonstrate understanding of the basics of wireless communications
3. Demonstrate understanding of second and third generation mobile communications technology options
4. Develop simple Wireless web applications
5. Demonstrate understanding of short range (WLAN) wireless technologies and associated issues (health, security etc.)

Unit Content
Introductory: The mobile communications industry and its regulation
Basic wireless communications issues
Basic networks
Mobile Communications: Networks and technology
                Mobile Commerce
Short Range: Local Area wireless networking
                Personal Area Networks
Ubiquitous computing: Hardware and software issues
                Implementation, Management, Safety and Security
                Futures

For more information see the section titled 'Content' on the unit website.

Generic Skills

The university has defined a set of generic graduate attributes expected in its graduates. http://www.admin.utas.edu.au/HANDBOOKS/UTASHANDBOOKS/RULES/POLGEN.html Your course is designed to enable you to develop generic skills that are valued in, and expected of, graduates. These are skills that you will need to develop over time. Hence you are encouraged to look for opportunities, as you study each unit, to reflect on and improve these skills.

LEARNING AND TEACHING

Approach to Learning

You are expected to spend about 130 hrs studying in this unit - this includes attendance at scheduled teaching sessions. (For a 13 week semester this is, on average, 10 hr/wk.) This is the amount of study time that the typical student will need to reach the level of competence and understanding required to fulfil the unit objectives.

You are expected to:

• attend all scheduled lectures and tutorials, unless otherwise notified by the unit coordinator
• prepare for, and actively participate in lectures and tutorials
• complete the assigned learning tasks
• review what has been learnt
• complete assessment items and submit them on time
• access and be familiar with the information and resources available on the unit website
• seek help from teaching staff if you have any questions or difficulties in studying this unit

You are encouraged to read the university's Code of Conduct for Teaching and Learning. Part A describes the 'Responsibility of the University to Students' and part B describes the 'Responsibilities of Students to the University'. http://www.admin.utas.edu.au/HANDBOOKS/UTASHANDBOOKS/RULES/CTEA.html

Schedule

See the 'Schedule' section on the unit website.

Teaching and Support Staff

Unit Coordinator:

Dr. Daniel Rolf
E-Mail: Daniel.Rolf@utas.edu.au
Phone: (03) 6324 3450
Room: V169, Newnham Campus, Launceston

Lecturing Staff

Sandy Bay Campus, Hobart: Dr. Daniel Rolf
Newnham Campus, Launceston: Dr. Daniel Rolf

School Help Desk

Contact the School Help Desk if you have any queries or problems with accessing, using, or printing from the computers in the School of Computing labs.

• Hobart: the Help Desk is located near the School's reception desk and is open in the morning from 9-11, and in the afternoon from 12-1 and 2-4, Monday-Friday. The phone number is 6226 2960.
• Launceston: the Help Desk is located near the entrance to the computing labs and is open in the morning from 10-12, and in the afternoon from 2-4:30, Monday-Thursday. On Fridays it is open from 10-12 in the morning and 2-4 in the afternoon. The phone number is 6324 3447.
• Burnie: the computer labs at the NWC are maintained by ITS. Please contact the University Help Desk for assistance. The 6 Macs are maintained by the School of Computing. If you have a query or problem that is specific to the School of Computing please phone the School of Computing Help
Desk in Launceston.

University Services and Support

The University has staff available to assist you, such as the:

- Learning Development Advisor
- Student Counselor
- Careers Advisor
- Disability Officer

For more information and contact details see the Services and Support section on the University 'Current Students' web page. [http://www.utas.edu.au/students/](http://www.utas.edu.au/students/)

Resources

Unit Website

The unit website contains unit information and resources.

Prescribed Text

None

Readings

Each lecture contains essential web based resources relevant to the topic(s) discussed.

The following book is highly recommended:

A more technical book is:

Software

The software that you will need to access the unit website and to study this unit, including general purpose software such as word processors, is provided on the computers in the School's computing labs. If you intend to use software on other computers please check that the versions are compatible.

Computing Facilities

The School has PC labs (Windows XP), Mac labs (Mac OS-X 10.3), and Networking labs at the Newnham and Sandy Bay campuses. It also maintains 6 Macs (Mac OS-X 10.3) at the NW Centre. Unix accounts can be accessed from all Macs and PCs.

If you have not used these facilities before please contact the School Help Desk to organise your account details. If you would like to access the facilities at the Newnham and Sandy Bay campuses after hours please contact the School Help Desk.

Please contact the School Help Desk if you have difficulty accessing or using these facilities.

Students will be provided with an account on a school laboratory machine to allow web based research and use of a Mobile Internet SDK.

Use of Facilities

Use of computing facilities provided by the School is subject to the School's Ethics Guidelines - [http://www.comp.utas.edu.au/app/ethics.jsp](http://www.comp.utas.edu.au/app/ethics.jsp). Copies of the guidelines are also available in all School labs. The School's facilities may only be used for study-related purposes, and may not be used for personal gain. The playing of games is strictly prohibited in all labs at all times. Before being granted access to the School's facilities, you will be required to sign a declaration that you have read and understand these guidelines, and that you will abide by them. Disciplinary action may be taken against students who violate the guidelines.

Occupational Health and Safety

The university is committed to providing a safe and secure teaching and learning environment. For more information see [http://www.admin.utas.edu.au/hr/ohs/pol_proc/](http://www.admin.utas.edu.au/hr/ohs/pol_proc/)
### Assessment

<table>
<thead>
<tr>
<th>Item 1</th>
</tr>
</thead>
</table>
| **Title:** Assignment 1  
**Type:** In-Semester - individual assignment  
**Weighting:** 10%  
**Due:** Friday, 27 August, 5:00pm (end of week 7) |

<table>
<thead>
<tr>
<th>Item 2</th>
</tr>
</thead>
</table>
| **Title:** Assignment 2  
**Type:** In-Semester - individual assignment  
**Weighting:** 15%  
**Due:** Fri 8th October at 5:00pm (end of week 12) |

<table>
<thead>
<tr>
<th>Item 3</th>
</tr>
</thead>
</table>
| **Title:** Tutorial Attendance  
**Type:** In-Semester - individual assignment  
**Weighting:** 5%  
**Due:** Each week |

Attendance and participation will be checked throughout the semester.

<table>
<thead>
<tr>
<th>Item 4</th>
</tr>
</thead>
</table>
| **Title:** 3 hr Examination  
**Type:** Formal Examination  
**Weighting:** 70%  
**Due:** University Examination Period |

See the 'Assessment' section in unit website for more detailed information about assessment items.

#### In-Semester Assessment

Unless specifically stated in the specification of the assessment item provided on the unit website, it is required that:

- work submitted by a student is the work of that student alone OR
- where the assessment item is to be completed by a group of students, the work submitted by the group of students is the work of that group of students alone.

Students are encouraged to complete a workbook of activities undertaken in the tutorials to act as evidence of preparation and participation.

#### Plagiarism

Plagiarism is a form of cheating. It is taking and using someone else's thoughts, writings or inventions and representing them as your own, for example:

- using an author's words without putting them in quotation marks and citing the source;
- using an author's ideas without proper acknowledgment and citation; or
- copying another student's work.

**If you have any doubts about how to refer to the work of others in your assignments, please consult your lecturer or tutor** for relevant referencing guidelines, and the academic integrity resources on the web at [http://www.utas.edu.au/tl/supporting/academicintegrity/index.html](http://www.utas.edu.au/tl/supporting/academicintegrity/index.html).

The intentional copying of someone else’s work as one’s own is a serious offence punishable by penalties that may range from a fine or deduction/cancellation of marks and, in the most serious of cases, to exclusion from a unit, a course or the University. Details of penalties that can be imposed are available in the Ordinance of Student Discipline – Part 3 Academic Misconduct, see [http://www.utas.edu.au/policy/subject.html#students](http://www.utas.edu.au/policy/subject.html#students).

The University reserves the right to submit assignments to plagiarism detection software, and might then retain a copy of the assignment on its database for the purpose of future plagiarism checking.
Referencing

The university document on plagiarism contains information about referencing the work or ideas of others. (See [http://www.utas.edu.au/plagiarism/](http://www.utas.edu.au/plagiarism/).) The preferred text referencing systems for the School is the Harvard system (also referred to as the author-date system).

Submissions

All in-semester assignment submissions (including electronic submissions) are to include an Assignment Cover Sheet which includes a statement confirming that the submission is your own work. If this undertaking is not signed, the assignment will not be marked. The Assignment Cover Sheet is available from the School Help Desk in Launceston and Hobart, and on the School's web site [http://www.comp.utas.edu.au/app/studyresources.jsp](http://www.comp.utas.edu.au/app/studyresources.jsp).

Extensions

Assessment items will not be accepted after the due date except under the conditions stated in the school policy on late assessment, [http://www.comp.utas.edu.au/app/late_assess.jsp](http://www.comp.utas.edu.au/app/late_assess.jsp).

Formal Examination

The formal examination is conducted by the University Registrar. The 'Current Students' section on the university website contains information about the conduct of, and timetable for, formal examinations.

Final Grade

Overall assessment will be based on the student's performance throughout the semester as well as in a formal examination. In order to achieve a pass (or better) result, a student must obtain:

1. at least 40% of the total mark for in-semester assessment items
2. at least 40% of the mark for the formal examination
3. at least 50% of the overall mark

Passing grades will be awarded based on the AVCC guidelines:

- PP at least 50% of the overall mark but less than 60%
- CR at least 60% of the overall mark but less than 70%
- DN at least 70% of the overall mark but less than 80%
- HD at least 80% of the overall mark

The maximum mark awarded to a student who fails the unit will be 44.

For more information, including other grades such as Supplementary and Terminating grades, see the School of Computing's guidelines for assessment - available at: [http://www.comp.utas.edu.au/app/assess.jsp](http://www.comp.utas.edu.au/app/assess.jsp)
